BUCKEYE[™] Nutrition products are formulated to be fed by weight. 1 qt of Pleasure Pellet weighs approximately 1.2 lb

1. Forage values are suggested intakes based on good quality forage. The quality and digestibility of the forage is variable and dependent on the maturity of the plant at harvest. Horses older than 6 months should be fed at least 1% of bodyweight as forage to maintain gut health.
2. When possible, have your forage analyzed to estimate quality and digestibility.
3. If the recommended minimum feeding rate is not met, either: a.) Add 1 lb of GRO 'N WIN[™] or GRO 'N WIN[™] Alfa by BUCKEYE[™] Nutrition for every 5 lb of Pleasure underfed. b.) Go to BuckeyeNutrition.com or call (800) 898-9467 for access to our equine nutritional experts.
4. Provide fresh, clean water and salt at all times.

Contact BUCKEYE Nutrition for additional feeding recommendations
