FEATURES	BENEFITS
A complete milk-based creep feed designed to complement your mare's milk.	Ensures essential vitamins and bioavailable trace elements are provided as the foal transitions from mare's milk to grain, and to compensate for the natural reduction in production and quality over lactation.
A complement to low quality milk or for under-producing mares.	Supplements the essential vitamins and trace minerals not provided in the milk.
Easily digestible fiber and prebiotic from mannan oligosaccharides (MOS)	Helps the foal transition to and adult fiber-based diet.
Elevated vitamin E, C and selenium levels	Antioxidants proven to support immunity and to increase the body's natural defenses.
A precise blend of amino acids, milk and soy proteins formulated to meet the foal's unique requirements.	Supports your foal's muscle and bone development.
Mini pellets	Easily digested, highly palatable and transitions the foal gently to adult food.
