**FEEDING DIRECTIONS:** See Second Page

# Buckeye® Big “4” Pellets

## FEEDING DIRECTIONS:

**Turkey Grower:** Feed as the sole ration to growing turkeys from ten weeks of age. Mix with Buckeye® Turkey Starter Crumbles at the rate of 50:50 from eight to ten weeks of age. Maintain a clean, fresh supply of water and grit available to the birds at all times.

**Large type turkey toms will normally weigh about 34 lb and hens about 24 lb at 20 weeks of age and have consumed between 80 and 110 lb of feed from hatching. This is highly variable and is highly dependent on genetics and environmental factor but is a guideline on growth and feed requirements.**

**Game Birds:** To be fed to non-laying game chickens as a source of protein, energy, minerals, and vitamins. May also be fed to growing pheasants and bobwhite quail as the sole diet after seven weeks of age as a grower ration. Maintain a clean, fresh supply of water and grit available to the birds at all times. Mature game birds in egg production should be fed Buckeye® 18% Game Bird Breeder Pellets.

**Pigeons:** May be feed to young growing pigeons as the sole ration or be mixed along with Buckeye Pigeon Feed for adult birds as a source of protein, minerals, and vitamin fortification.

**Duck/Geese:** Feed to young ducks and geese from hatching to seven weeks of age and as a supplement to breeding birds. Baby ducks and geese which cannot consume “Big 4” because of pellet size the first week or two should be started on Buckeye® 21% Broiler Starter – Finisher Crumbles. Growing ducks and geese may be supplemented with Big 4 while they graze on pasture in the outdoors. Buckeye® 18% Layer - Breeder Pellets during periods of heavy egg production are recommended.

**White Pekin Ducks will normally weigh between 6.7 and 7.3 lb at 7 weeks of age consuming between 18 and 20 lb of feed. This is highly variable and is highly dependent on genetics and environmental factor but is a guideline on growth and feed requirements.**

**Chickens:** This product is excellent for growing birds for show.
