

Buckeye® 18% Miracle Starter-Grower

10150

TYPE OF FEED Complete
FORM OF FEED: Crumbles
PACKAGING: 50 lb Paper Bags
SPECIES: Poultry
AGES: Day old to 12 weeks

FEATURES:

- An 18% protein pelleted crumble for starting chicks of the lighter breeds (e.g. Leghorns) for the first 12 weeks of life
- Fortified with high levels of minerals and vitamins to support rapid growth
- Non-medicated, therefore no drug withdrawal or drug resistance will occur
- Contains *Lactobacillus acidophilus* as an inoculate to promote a healthy digestive system. (E.g., similar effect as occurs in yogurt)
- Contains mannan oligosaccharide, a yeast product, which inactivates many of the pathogenic organisms in the digestive system

FEEDING DIRECTIONS: See Second Page

Buckeye® 18% Miracle Starter-Grower

FEEDING DIRECTIONS:

Feed as the sole ration to chicks of the lighter breed (e.g. Leghorns) from hatching to twelve weeks of age. At 12 weeks of age the birds should be changed to Buckeye 15% Pullet Grower and Developer Crumbles. Have clean, fresh water available for the chicks at all times. Keep the birds in a clean, well-ventilated dry environment free of drafts.

If they are Leghorn pullets, the birds should weigh between 2 and 2.5 pounds by 12 weeks of age and have consumed between 8 and 9 pounds of Buckeye 18% Miracle Starter – Grower Crumbles. These values for growth and the amount of feed required to obtain this growth are very dependent on the strain of birds, environment, general health and condition of the birds.

This product contains no medication. Natural microbial products have been added to the product to promote improved bird health. If an outbreak of coccidiosis should occur, medicate through the water with the appropriate medication.
