

Buckeye® 20% Gold Standard Laying Crumbles

10750

TYPE OF FEED Concentrate

FORM OF FEED: Crumbles

PACKAGING: 50 lb Paper Bags

SPECIES: Chickens

AGES: Laying hens in egg production

FEATURES:

- A 20% protein pelleted crumble to feed poultry with scratch or cracked corn
- Contains high levels of calcium for egg shell quality
- Includes high quality porcine meat meal to enhance performance and as a natural source of calcium and phosphorus
- A balance of Amino Acids to reduce the amount of waste nitrogen
- Contains corn gluten meal as a source of betacarotene, a natural pigmentation for improved egg yolk color

GUARANTEED ANALYSIS

Crude Protein, min.	20.00%
Lysine, min.	1.00%
Methionine, min	0.40%
Crude Fat, min.	3.00%
Crude Fiber, max.	5.00%
Calcium, min.	3.00%
Calcium, max.	4.00%
Phosphorus, min.	0.90%
Salt, min.	0.30%
Salt, max.	0.80%

INGREDIENTS: Grain Products, Processed Grain By-Products, Plant Protein Products, Porcine Animal Protein Products, Forage Products, DL Methionine, Calcium Carbonate, Calcium Phosphate, Salt, Manganous Oxide, Ferrous Sulfate, Copper Sulfate, Zinc Oxide, Ethylenediamine Dihydriodide, Cobalt Carbonate, Sodium Selenite, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Menadione Dimethylpyrimidinol Bisulfite (source of Vitamin K Activity), Riboflavin Supplement, Niacin Supplement, d-Calcium Pantothenate, Vitamin B12 Supplement, Folic Acid, Pyridoxine Hydrochloride, Thiamine Mononitrate, Biotin, Choline Chloride, Ethoxyquin (a preservative).

FEEDING DIRECTIONS: Feed to laying hens at the rate of 60% Gold Standard Laying Crumbles and 40% grain. For lighter weight hens and hens in extremely heavy production, the level of Gold Standard Laying Crumbles to grain may be increased to 70% Crumbles and 30% grain. Always maintain a clean, fresh supply of water along with oyster shells and grit for the laying hens. Maintain the birds in a clean, dry, and draft free environment. For hens to lay at their genetic potential, daylight or artificial light must be maintained at between 14 and 16 hours per day.

Do not feed Gold Standard Laying Crumbles to any laying hens or young growing birds for extended periods of time because the higher levels of calcium incorporated into the feed for egg shell formation may cause harm to the birds.
