

Buckeye® 16% Prosperity Layer Feed

11050

TYPE OF FEED Complete

FORM OF FEED: Crumbles

PACKAGING: 50 lb Paper Bags

SPECIES: Chickens

AGES: For laying hens in egg production laying less than 75% production

FEATURES:

- Pelleted and crumbled to improve performance
- Eliminates sorting of the feed ingredients
- Contains quality ingredients for laying hens
- Fortified with minerals and vitamins for improved health and egg production
- Contains excellent levels of calcium and phosphorus for egg shell quality

GUARANTEED ANALYSIS

Crude Protein, min.	16.00%
Lysine, min.	0.82%
Methionine, min	0.28%
Crude Fat, min.	3.00%
Crude Fiber, max.	5.00%
Calcium, min.	2.50%
Calcium, max.	3.50%
Phosphorus, min.	0.52%
Salt, min.	0.10%
Salt, max.	0.60%

INGREDIENTS: Grain Products, Processed Grain By-Products, Plant Protein Products, Porcine Animal Protein Products, Forage Products, DL-Methionine, Calcium Carbonate, Calcium Phosphate, Salt, Manganous Oxide, Ferrous Sulfate, Copper Sulfate, Zinc Oxide, Ethylenediamine Dihydriodide, Cobalt Carbonate, Sodium Selenite, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Menadione Dimethylpyrimidinol Bisulfite (Source of Vitamin K Activity), Riboflavin Supplement, d-Calcium Pantothenate, Niacin Supplement, Choline Chloride, Vitamin B12 Supplement, Pyridoxine Hydrochloride, Thiamine Mononitrate, Folic Acid, d-Biotin. Ethoxyquin (a preservative).

FEEDING DIRECTIONS: Feed as the sole ration to laying hens. Maintain a clean, fresh supply of water, oyster shells, and grit to the birds at all times. Keep the birds in a clean, dry environment with about 2 square feet of floor space per bird in a laying house along with adequate nesting locations. Hens in production should consume approximately 22 to 25 pounds of Buckeye® 16% Prosperity Layer Feed per day for every 100 birds in the laying house. Begin feeding Buckeye® 16% Prosperity Layer Feed as soon as the first eggs appear in the laying house. The birds will require 14 to 16 hours of light to reach normal egg production. Do not allow the lights to be on continuously so as to cause excessive stress on the birds. Buckeye® 15% Pullet Grower Crumbs are recommended for immature birds or for birds, which are not in egg production because of the lower calcium in the pullet grower diet. Lighter breeds such as leghorns should be fed Buckeye® 17% Complete Layer Crumbs when feed consumption is less than 22 pounds per hundred birds and when egg production is in excess of 75%. The reason for this is that Buckeye® 17% Complete Layer Crumbs contains more protein and is more energy dense.
