

# Buckeye® Bova Classic Mineral

# 121750

TYPE OF FEED Mineral Feed

FORM OF FEED: Granular

PACKAGING: 50 lb paper bag

SPECIES: Sheep

AGES: All ages

---

## FEATURES:

- A premix mineral designed for increasing feed efficiency and improving the rate of weight gain in feeders, replacement cattle on pasture and to feedlot cattle
- Contains Bovatec (Lasalocid) which is an ionophore, to improve feed efficiency
- To be incorporated into a grain mix or into a TMR
- Fortified with macrominerals, microminerals, and vitamins to promote general health
- The product when fed at 0.42 lb (6.7 ounces) per head per day will supply 302 mg of Lasalocid and 3 mg of Selenium per head per day which is the maximum legal limit for Selenium for beef cattle

## GUARANTEED ANALYSIS

Calcium, min.	20.00%
Calcium, max.	24.00%
Phosphorus, min.	4.00%
Salt, min.	19.00%
Salt, max.	22.80%
Magnesium, min.	2.0%
Potassium, min.	1.10%
Manganese, min.	800 ppm
Iron, min.	2200 ppm
Zinc, min.	2200 ppm
Iodine, min.	50 ppm
Selenium, min.	24 ppm
Vitamin A, min.	200,000 IU/lb
Vitamin D, min.	50,000 IU/lb
Vitamin E, min.	130 IU/lb

INGREDIENTS: Calcium Carbonate, Calcium Phosphate, Salt, Potassium Chloride, Magnesium Sulfate, Potassium Sulfate, Magnesium Oxide, Manganous Oxide, Ferrous Carbonate, Copper Sulfate, Zinc Oxide, Cobalt Carbonate, Ethylenediamine Dihydriodide, Sodium Selenite, Vitamin A Supplement, Vitamin D Supplement, Vitamin E Supplement, Soybean Oil.

**CAUTION: Do not allow horses or other equines access to feeds containing Lasalocid as ingestion may be fatal. The safety of Lasalocid in unapproved species has not been established. Feeding undiluted or mixing errors may result in an excess Lasalocid concentration which could be fatal to cattle and sheep.**

FEEDING DIRECTIONS: See Second Page

# Buckeye® Bova Classic Mineral

## FEEDING DIRECTIONS:

### WARNING:

A withdrawal period has not been established for this product in pre-ruminating cattle. Do not use in calves to be processed for veal. Do not permit intake of supplemental selenium to exceed 3 mg on a complete ration basis.

### FEEDING DIRECTIONS:

**Pasture Cattle** Incorporate Buckeye® Bova Classic Mineral into a grain mix to be hand fed at the rate of between 0.1 pound (1.6 oz.) and 0.27 pound (4.4 oz.), which will supply 72 mg and 200 mg of Lasalocid per head per day respectively. The above amounts will also supply 0.73 and 2 mg of Selenium. The maximum legal level of Selenium that may be fed to beef cattle is 3 mg per head per day. The grain mix should be fed accordingly. Additional hay and corn silage may be fed along with the pasture. Salt, appropriate Buckeye® Mineral, and water should be available ad libitum.

**Feedlot Cattle** Feed Buckeye Bova Classic Mineral to cattle in a feedlot at between 0.28 pound (4.5 oz.) and 0.42 pound (6.7 oz.) per head per day which will supply between 202 mg and 302 mg of Lasalocid per head per day respectively. This will also supply between 2 mg and 3 mg of Selenium per head per day. This mineral must be incorporated into the diet as a TMR or a portion of the diet and be handfed.
