

Buckeye® Mixing Harvest Salt

121950

TYPE OF FEED Loose Salt

FORM OF FEED: Granular

PACKAGING: 50 lb plastic bag

SPECIES: Dairy and Beef Cattle, Goats

AGES: All Ages

FEATURES:

- Contains no medication
- Do Not Feed to Sheep as this product contains added copper
- Contains ZINPRO®, a form of zinc that is readily available and more effective than other zinc sources
- The combination of copper, zinc, and selenium make Buckeye® Mixing Harvest Salt an integral part of livestock operations where copper and selenium are deficient
- Contains trace minerals at optimum levels for the species listed

GUARANTEED ANALYSIS

Salt, min.	92.00%
Salt, max.	95.00%
Sulfur, min	0.55%
Manganese, min.	4000 ppm
Zinc, min.	5000 ppm
Copper, min.	2500 ppm
Cobalt, min.	150 ppm
Iodine, min.	40 ppm
Selenium, min.	40 ppm

INGREDIENTS: Salt, Manganese Sulfate, Zinc Sulfate, Zinc Methionine Complex, Copper Sulfate, Cobalt Sulfate, Ethylenediamine Dihydriodide, Sodium Selenite, Soybean Oil.

WARNING: DO NOT FEED TO SHEEP; The level of copper in Buckeye® Mixing Harvest Salt may be toxic to sheep.

FEEDING DIRECTIONS:

Buckeye® Mixing Harvest Salt contains a higher level of fortification of trace minerals than most other trace mineral salt mixes on the market. The bio-availability of the added trace minerals are of the highest quality. Each ounce of Mixing Harvest Salt contributes 125 mg of manganese, 75 mg of copper, 149 mg of zinc (both from zinc sulfate and from zinc methionine complex), 4.4 mg of iodine, 7.2 mg of cobalt, and 1.15 mg of selenium. The levels and the combination of copper, zinc, and selenium make Mixing Harvest Salt an integral part of many successful horse and livestock operations where copper and selenium are deficient in the forage part of the ration.
