GUARANTEED ANALYSIS

| | |
|---------------------|-----------------|
| Crude Protein, min. | 6.00% |
| Crude Fat, max. | 3.00% |
| Crude Fiber, min. | 10.00% |
| Vitamin A, min. | 2,000,000 IU/lb |
| Vitamin D, min. | 500,000 IU/lb |
| Vitamin E, min. | 1000 mg/lb |

INGREDIENTS: Vitamin A Acetate, D-Activated Animal Sterol (source of Vitamin D₃), Vitamin E Supplement, Grain Products, Processed Grain By-Products, Roughage Products, Calcium Carbonate, Vegetable Oil, Manganese Oxide, Ferrous Sulfate, Copper Sulfate, Zinc Oxide, Ethylenediamine Dihydriodide, Sodium Selenite, Menadione Dimethylpyrimidinol Bisulfite (Source of Vitamin K), Niacin, Riboflavin Supplement, D-Calcium Pantothenate, Vitamin B₁₂ Supplement, Choline Chloride, Calcium Propionate.

MIXING DIRECTIONS:

Lactating Cows and Young Stock - 5 pounds per ton of grain ration. 5 pounds per ton will supply Vitamin A - 5000 IU, Vitamin D - 1,250 IU, and Vitamin E - 2.5 mg per pound. If additional Vitamin E is desired, use Vitamin E - 20. When fortifying diets, utilize higher rates for poor quality hay and lower rates for high quality hay.
