Buckeye® 20-10% Mineral

FEEDING DIRECTIONS:

Buckeye® 20:10 Mineral contains sufficient levels of both macrominerals and microminerals plus Vitamin A to give excellent results. However, it does not carry the high levels of fortification that are found in Buckeye® 17:17%, Buckeye® Dairy Elite Mineral, or Buckeye® 7% Mineral. Use 50 lbs of Buckeye® 20:10 Mineral plus 15 lb of salt per ton of grain mix for lactating dairy animals. Adding salt to the grain ration of non-lactating animals is optional. Feeding salt free choice to both lactating and non-lactating animals is recommended. Adding 5 lb of Buckeye® A, D, &E Vitamin Mix per ton of grain mix is recommended during the winter months and all year for those animals not on pasture.

Replacement Heifers and Beef Cattle*

Feed free choice to cows and heifers on pasture and grass hay to improve bone development and herd health.
