FEEDING DIRECTIONS: When switching foods, take about one week to make the transition to ProKennel™ Premium Formula. Each day, increase the amount of ProKennel™ Premium Formula fed and decrease the amount of the previous diet. ProKennel™ Premium Formula is highly digestible and palatable, and contains more calories per cup than many other dog foods. Feed the proper amount of ProKennel™ Premium Formula to maintain the dog's body weight and condition at a proper level. If feeding ProKennel™ Premium Formula free-choice, monitor body weight and condition closely.

Each dog is an individual and must be fed according to its individual needs, depending on activity, growth, physiological state, and physical environment. Growing dogs, pregnant or lactating females, or hard working dogs will require more food per day. Inactive dogs will require less. Dogs living outdoors in cold weather require more food than those living indoors.
