

# Buckeye® 18% Gold 'n Show Lamb

# 47450

TYPE OF FEED: Fortified Grain Mix  
FORM OF FEED: Texturized  
PACKAGING: 50 lb paper bag  
SPECIES: Lambs  
AGES: Growing and finishing

## FEATURES:

- An 18% protein feed formulate to maximize muscle growth and frame development
- Contains added digestible fiber from soybean hulls, alfalfa meal, and dried beet pulp to help stimulate feed intake and greatly reduce the chance of rumen acidosis, causing lambs to go off feed, and stall out
- Contains an assortment of grains and grain processes to balance out the rate of starch digestion in the rumen of reduce rapid rumen pH declines
- High levels of macro and microminerals to aid in health, hoof and wool condition
- Contains ammonium chloride to help alleviate problems associated with urinary calculi

## GUARANTEED ANALYSIS

*Crude Protein, min.	18.00%	Potassium, min.	0.80%
Crude Fat, min.	3.00%	Sulfur, min.	0.24%
Crude Fiber, max.	10.00%	Copper, min.	10.00 ppm
Acid Detergent Fiber, max	12.00%	Copper, max.	15.00 ppm
Calcium, min.	0.40%	Selenium, min.	0.30 ppm
Calcium, max.	0.90%	Vitamin A, min.	3,200 IU/lb
Phosphorus, min.	0.45%	Vitamin D, min.	400 IU/lb
Salt, min.	0.10%	Vitamin E, min.	20 IU/lb
Salt, max.	0.60%		

\* This includes not more than 1.0% equivalent protein from non-protein nitrogen

INGREDIENTS: Steam Crimped Corn, Soybean Meal, Cracked Corn, Oats, Soybean Hulls, Dehydrated Alfalfa Meal, Dried Beet Pulp, Fishmeal, Cane Molasses, Soybean Oil, Ammonium Chloride, Calcium Carbonate, Calcium Phosphate, Salt, Potassium Sulfate, Magnesium Sulfate, Manganese Oxide, Ferrous Carbonate, Copper Sulfate, Zinc Oxide, Ethylenediamine Dihydriodide, Cobalt Carbonate, Sodium Selenite, Vitamin A Supplement, Vitamin D-3 Supplement, Vitamin E Supplement.

\*The non-protein nitrogen is derived from ammonium chloride

FEEDING DIRECTIONS: See Second Page

## **Buckeye® 18% Gold 'n Show Lamb**

**FEEDING DIRECTIONS:** Feed Buckeye® 18% Gold 'n Lamb at the rate of between 2.0 and 3.5% of body weight along with a limited amount of excellent quality hay so as not to develop excessive gut in the growing animals. Maintain a clean, fresh supply of water and have white, loose salt available for the animals at all times. If additional or more rapid weight gains are required to make show weight, 25% shelled corn may be substituted for Buckeye® 18% Gold 'n Lamb, but care must be exercised so as not to allow the lamb to become overconditioned or carry excess fat.

Buckeye® 18% Gold 'n Lamb can be fed as a holding ration by limiting the amount of grain to 1.5% of bodyweight with limited amounts of excellent hay. It is recommended that the animal be placed on full feed about two weeks prior to the show to put bloom on the show animal which may have been partially lost during the holding phase
