Crude Fat, Min.	1.00%
Crude Fiber, Max.	10.00%

INGREDIENTS: Inulin, *Saccaromyces cerevisiae* Yeast Culture, Dried *Saccharomyces cerevisiae* Fermentation Solubles, Brewers Dried Yeast, *Lactobacillus acidophilus* fermentation product, *Enterococcus faecium* Fermentation Product, Dehydrated Apple Pomace.

FEEDING DIRECTIONS: Equine Correct[®] is a pre-biotic, pro-biotic and a yeast culture to be administered to foals and older horses with diarrhea. Provide the following amounts/day depending on the individual size of your horse. Divide the recommended feeding level into a minimum of two feedings per day. Continue for seven days after the problem subsides.

Equine Correct[®] can be top dressed on a grain mix or mixed with warm water into a paste consistency and drench. Only mix the amount you will administer within 15 to 20 minutes.

Body weight	Feed Per Day*
