WARNING: Contains added copper. Do not feed to sheep.

FEEDING DIRECTIONS:

To make a grain mix for maintenance (idle) horses, add 50 lbs of Mixing Mineral – Grass and 20 lbs of Buckeye® Harvest Salt per ton of grain mix. If a 1000 lb horse is fed 5 lbs of the grain mix per day, NRC recommendations for maintenance mineral levels will be provided. For different classes of horses, consult your Buckeye® Nutrition sales representative for additional directions.
