FEEDING DIRECTIONS: When switching foods, take about one week to make the transition to ProKennel™ Puppy Formula Food. Each day, increase the amount of ProKennel™ Puppy Formula fed and decrease the amount of the previous diet. ProKennel™ Puppy Formula is highly digestible and palatable, and contains more calories per cup than many other puppy foods. Feed the proper amount of ProKennel™ Puppy Formula Food to promote growth and proper body condition. We do not recommend free-choice feeding of ProKennel™ Puppy Formula Food, since many puppies will overeat and become overweight. Overfeeding is detrimental to growing bones and joints, and may result in skeletal abnormalities.

Young puppies should be fed three to four times per day, since their stomach capacity is small. As puppies get older, the number of feedings per day may be reduced to twice daily. The energy needs of the growing puppy are highest during the first 8 months of life. After 8 months of age energy needs decrease, but are still higher than the adult dog.

Wt of puppy (lb)	Puppies up to 8 months old	Puppies over 8 months old
	Amount to Feed/Day (cups)	Amount to Feed/Day (cups)
1 to 5	1/2 to 1	1/2 to 1
6 to 10	1 to 1 1/2	1 to 1 1/4
11 to 20	1 1/2 to 2 1/2	1 1/4 to 2
21 to 30	2 1/2 to 3 1/4	2 to 2 1/2
31 to 40	3 1/4 to 3 3/4	2 1/2 to 3
41 to 50	3 3/4 to 4 1/2	3 to 3 1/2
51 to 75	4 1/2 to 5 1/2	3 1/2 to 4 1/2
75 to 100	5 1/2 to 7	4 1/2 to 5 1/2

Metabolizable Energy: 1800 kcal/lb 3960 kcal/kg

Kcal per Cup: 410

One 8 ounce measuring cup holds 3.7 ounces of ProKennel™ Puppy Formula Food

ProKennel™ Puppy Formula Food may be fed dry, or moistened with water, broth, or gravy
