FEEDING DIRECTIONS: When switching foods, take about one week to make the transition to ProKennel™ Chicken and Rice. Each day, increase the amount of ProKennel™ Chicken and Rice fed, and decrease the amount of the previous diet. ProKennel™ Chicken and Rice is highly digestible and palatable, and contains more calories per cup than many other dog foods. Feed the proper amount of ProKennel™ Chicken and Rice to maintain the dog's bodyweight and condition at a proper level. If feeding ProKennel™ Chicken and Rice free-choice, monitor body weight and condition closely.

Wt of dog (lb)	Active Adults, early Pregnancy Amount to Feed/Day (cups)	Late Pregnancy, Lactation Amount to Feed/Day (cups)
5 to 15	¾ to 1½	1 to 2¼
16 to 30	1½ to 2¼	2¼ to 3½
31 to 45	2 to 3	3½ to 4½
46 to 60	3 to 3½	4½ to 5¼
61 to 75	3 to 4	5¼ to 6
76 to 100	4 to 4¾	6 to 7¼
101 to 125	4¾ to 5½	7¼ to 8½

Metabolizable Energy: 1720 kcal/lb or 3785 kcal/kg

Kcal per Cup: 376

One 8 ounce measuring cup holds 3.5 ounces of ProKennel™ Chicken and Rice

ProKennel™ Chicken and Rice may be fed dry, or moistened with water, broth, or gravy

Each dog is an individual and must be fed according to its individual needs, depending on activity, growth, physiological state, and physical environment. Growing dogs, pregnant or lactating females, or hard working dogs will require more food per day. Inactive dogs will require less. Dogs living outdoors in cold weather require more food than those living indoors.
